FURNITURE FOR SCHOOL ENVIRONMENT

2025

Creativity & Passion

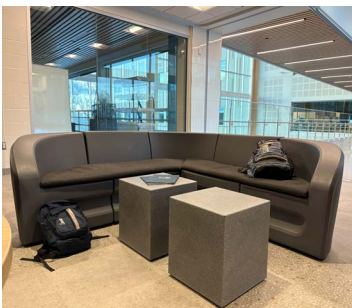

We are, first and foremost, passionate designers and manufacturers dedicated to creating thoughtfully designed and perfectly suited furniture for educational environments. We have a keen obsession with the details that make a difference, elevating our products to a whole new level.

Our satisfaction comes from seeing a student comfortably seated, ready to engage in a lesson, or a teacher looking at their classroom layout with pride.

For over 20 years, we have designed and developed hundreds of products, making us, without a doubt, the most experienced designers of rotationally molded products in Canada.

We are committed to continuously improving our products and processes, always with respect for the environment and a focus on sustainable development.

Hello greens!

All the plastic materials that we use are completely recyclable. Black coloured products are made of 100% recycled resin. Furthermore, our manufacturing process, rotational molding, does not produce any plastic waste or residues.

BL.000

* For the unilluminated planters, anchor must be specified with the order

SPECIFICATIONS

Units of measurement are according to the International System of Units (SI).

The product dimensions are indicative and may differ from actual product sizes.

Colors are an approximation of the actual colours of the product.

The color of a lighted product will appear lighter when it is turned on.

Extreme temperature changes (example : a cold night followed by a warm sunny day) may cause air inside the product to expand, causing short-term changes to its shape.

Due to the nature of the rotational moulding process, flat surfaces on ODEM products may feature slight undulations which do not detract from the product's strength or durability.

WARRANTY

Twist is very proud of the quality of its products. Each component is inspected at every manufacturing step. To confirm Twist's total confidence in its products, the company guarantees the first purchaser the rotational casting components for a 5-year period and the other components for a 1-year period against any defect in material or manufacturing. For commercial use, the warranty is 1 year.

The only Twist liability and the only recourse of the purchaser under this guarantee will be the obligation to replace or repair defective components as long as the said defects are not attributable to improper usage or a usage that does not comply with the directives stated in the maintenance manual.

To fully benefit from the service offered in the warranty, you may contact your retailer or Twist. A written permission from Twist is mandatory before returning a defective product for inspection.

Any product found defective within the delays stated in the warranty will be repaired or replaced FOB Quebec City if it is sent to the plant with freight costs paid in advance. Twist reserves the right to credit or replace the product or component with new or upgraded parts.

Under no circumstance would Twist accept any responsibility for indirect or fortuitous damages in relation thereto the sale and usage of its products. This denial will remain valid throughout the warranty and after it expires.

The warranty provisions are in addition to the legal warranties and other rights and remedies pursuant to any legislation, without modifying them or excluding any part whatsoever.
