Creativity & Passion

We are first and foremost passionate creators. Four industrial designers with complimentary experience and skills, working hand in hand since 20 years to develop products that are both well thought-out and perfectly adapted to their intended use. We are somewhat obsessed with details that make a difference and bring the product to another level.

Our satisfaction comes from seeing the smile of a client that confirms the comfort of a chair or from another coming up to us to say that their outdoor light still provides them with enjoyment after ten years.

Through the years, we have designed and developed hundreds of products, which make us, without any pretention, the most experienced designers of rotationally molded products in Canada.

We are committed to always improving our products and our ways and to do it while respecting the environment and with sustainable development in mind.

FURNITURE

FURNITURE FOR THE POOL

Some products from our collections can be used as in-pool furniture.
The material the products are made of is resistant to chlorine and salt water.
Our pool products do not damage pool liners.

We do not recommend using products in water deeper than the recommended depths as they may float.
